SUMMARY

Full-stack web developer with hands-on experience building AI-powered applications, a secured patent in AI-based identity verification, and certifications in Salesforce and Google Cloud. Passionate about crafting practical solutions at the intersection of web development and AI.

EDUCATION

KKR & KSR Institute of Technology & Sciences

B.Tech in Computer Science and Artificial Intelligence — CGPA: 7.71

Oct 2022 – Apr 2026

Vinjanampadu, AP

EXPERIENCE

Web Developer

Innovarsity

Sep 2025 – Present

Vijayawada, AP

- Built responsive web apps serving **500+** users, improving UX engagement by **20%**.
- Developed an Edu-Tech platform using **HTML, CSS, JS**, with modular structure and **Git**-based version control.
- Optimized asset loading and CSS structure, reducing page load time and improving overall site performance.

SWE Intern

ApiRSquare

Jul 2024 – Aug 2025

Vijayawada, AP

- Built responsive, mobile-first web interfaces ensuring consistent UX across devices and screen sizes.
- Developed a full-stack e-commerce website (cleaneatz.in) for millet-based products with product listings and a streamlined checkout flow.
- Collaborated with the client to translate business requirements into functional UI/UX designs, iterating based on feedback.

PROJECTS

HealthBot | Flask, Python, Groq API (LLaMA 3), HTML/CSS/JS | [GitHub](#) | [Live Demo](#)

- Developed an AI-powered health assistant chatbot using Flask & LLaMA 3.3 70B (Groq API) with a responsive interface.
- Handles diverse medical queries spanning symptoms, medications, nutrition, fitness, and mental health with context-aware responses.

RAGbot — Chat with Documents | Flask, Python, Groq API (LLaMA 3), HTML/CSS/JS | [GitHub](#) | [Live Demo](#)

- Full-stack RAG chatbot supporting PDF, DOCX, TXT, and Markdown uploads with source-cited, context-grounded responses via LLaMA 3 (Groq API).
- Custom chunking pipeline with keyword-based retrieval to surface top-4 relevant passages as LLM context.

Academia Share | Django, Python, SQLite, Git, HTML/CSS/JS | [GitHub Link](#)

- Role-based campus file-sharing platform with teacher/student dashboards supporting upload, deletion, and permission control.
- Keyword search functionality for quick discovery of shared academic resources across the platform.

College Course Recommendation System | Django, Python, Streamlit, SQLite, Git, HTML/CSS/JS | [GitHub Link](#)

- AI recommendation engine suggesting relevant online courses to engineering students based on their academic curriculum.
- Keyword extraction and matching algorithms to map course content to student learning needs with high relevance accuracy.

SKILLS

Languages: Python, JavaScript, Bash, C

Backend / Frontend: Django, Flask, HTML, CSS, SQLite, LLaMA 3

Cybersecurity: Kali Linux, Metasploit, Ubuntu, Nmap, Penetration Testing

Cloud & Tools: Salesforce, Google Cloud, Firebase, Git, GitHub, Render

Tools: Bubble.io, Canva, FlutterFlow, Streamlit

Soft Skills Communication, Leadership, Teamwork, Problem-solving.

ACHIEVEMENTS & CERTIFICATIONS

- Secured a [patent](#) on an AI-Based System for Verifying & Securing Digital Communication Profiles using Multi-Factor Biometrics
- Published research on [Secure Identity Verification using True-Profile Detection](#) – IJSDR
- [Salesforce Certified Agentforce Specialist](#) · [Google Cloud Computing Foundations](#)
- [Cybersecurity](#) – EduSkills & Palo Alto · [AI Fundamentals](#) – IBM · [Full Stack Web Developer](#) – Blackbugs
- Competed in national and regional hackathons – Smart India Hackathon, MSME, T-Hub
